SUBJECT: Possible Security Leak

TO:

INFO: Chief, PGops []

1. We have received reports that NKVD security police forces had advance information of a recent [] body drop, and informed several individuals on their descent to the ground. The security forces allegedly received their information through a leak in Germany, Italy or France.

2. Although the information received is at substantial variance with RUEKIN activity with us to date, location and number of people involved, and hence is presumably based on some other operation, special care must be taken to insure that only those know of projected drop dates who really need this information.

3. You are, therefore, strongly urged to maintain special security precautions, limiting operational information to the minimum number of personnel, and withholding it until the last minute from NKVD personnel.

4. Any comments you may have on this problem will be appreciated.
